Cable Lugs for PinBrazing

To be crimped to the cable

SAFETRACK´s cable lugs are specially made for PinBrazing.
Use SAFETRACK´s crimping tools to ensure adequate contact.

**For connecting smaller cable sizes
use terminal sleeves and lugs as follow:**
2,5 mm² (#13 AWG), use terminal sleeve SAFE 6700 + lug SAFE 6056 (10 mm² cable lug)
4,0 mm² (#11 AWG), use terminal sleeve SAFE 6701 + lug SAFE 6056
6,0 mm² (#9-10 AWG), use terminal sleeve SAFE 6702 + lug SAFE 6056

To be PinBrazed to the cable

This cable lug is both PinBrazed to the cable and to the surface. No crimping tool is needed. The cable is inserted in the lug which is flatten and the cable is then PinBrazed to the lug by placing the brazing pin in the flattened hole.
